

CheckEze® 201 Specifications

Built from 30 years of experience in library systems, CheckEze is truly the most user friendly, effective patron Self-check system available. CheckEze 201 is based on the same friendly software as the standard CheckEze but is more economical. It supports the same features and peripherals as well.

Computer	Dell Optiplex™ 7010 Ultra Small Form Factor (or newer similar model)
OS	Windows 7 Professional, 64 bit
Scanner	Motorola Symbol LS4208. Highly sensitive and reliable.
Touchscreen	Elotouch 15" Intellitouch. The industry standard, stands up to heaviest use.
Printer	Star Micronics TSP743 direct thermal (or customer specified). Easy drop in paper loading.

- Clear simple visual instructions allow your Patrons to use the system with confidence their very first time.
- Full RFID support. Just add an antenna. Conversion software included for quickly programming RFID labels.
- Shows fines due, holds ready and materials checked out. Blocks checkout if fines are greater than a set limit.
- Audible cues. Volume can be set by staff or turned off. Patron can adjust volume for his or her session only.
- SIP2 Protocol. Sirsi-Dynix Certified. Works with most ILS Systems.
- Reports: Send usage report to receipt printer right from touch screen. Instantly see usage for common periods i.e. daily, weekly, monthly subtotaled by media types. All transaction details are saved to MDB (Microsoft Access) files for custom reporting.
- Customize messages and verbal cues using a text editor and windows media files. Assistance with customization included.
- Receipt can be customized and may include custom graphics via the supplied high speed direct thermal printer.
- Detailed screen instructions in 14+ languages included.
- Suitable for unsecured or RF security (Place detuning paper receipt in pocket)
- Remote updates and support.
- Options:
 - RFID Antenna Pad – ISO Compatible
 - Custom solid wood custom cabinet, with raised panels and heavy duty casters, specify color.
